mastro Expert

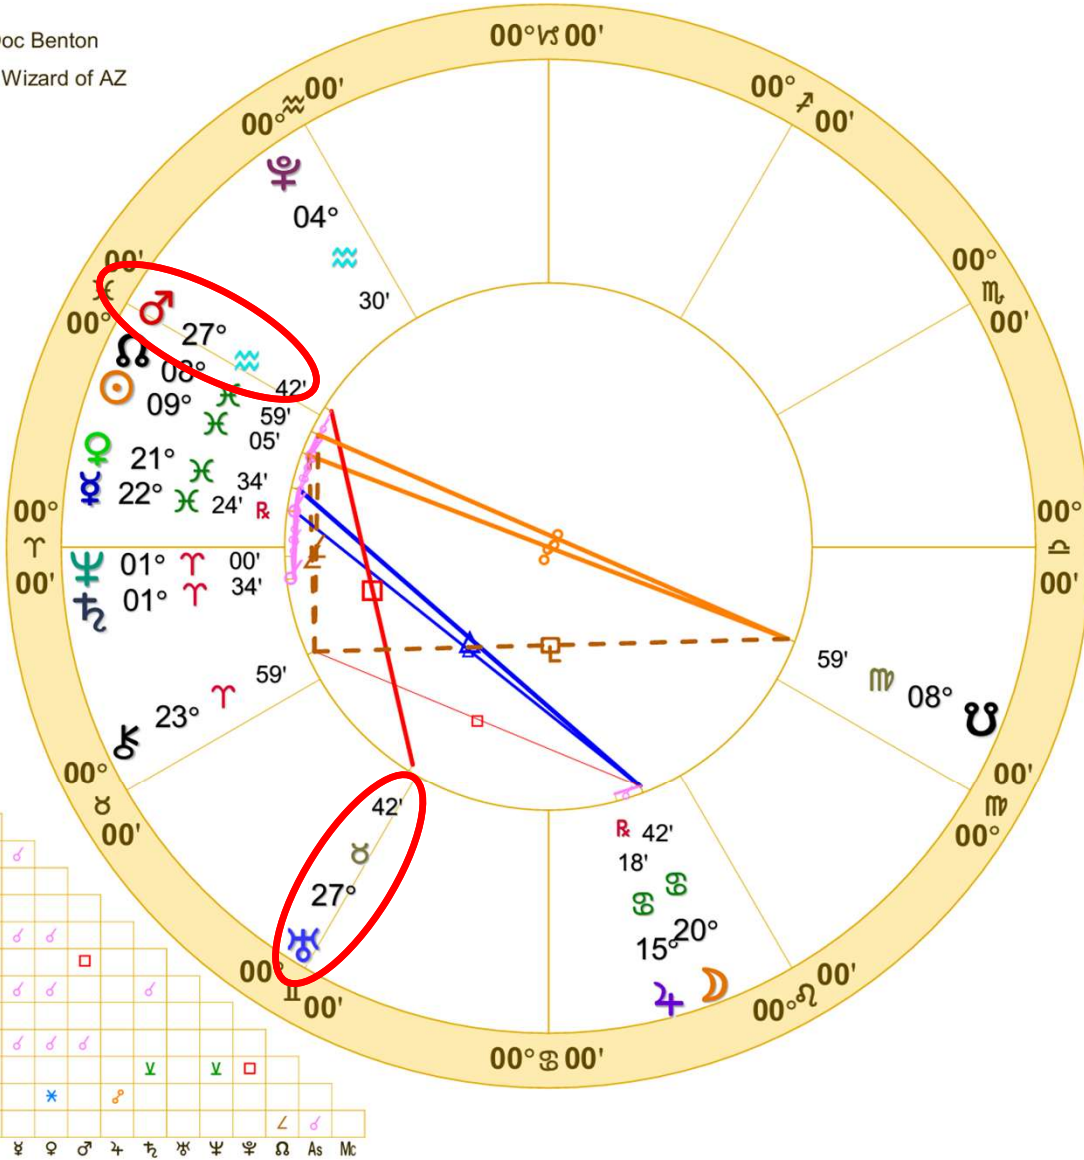

Version 7.7

© Mastro Software, 2015-2025

The Mastro Expert software examines hundreds of aspects and midpoints to which keywords have been assigned, and then determines which keywords are most likely to describe that person or event. Also, with the help of ChatGPT to extract keywords from online biographies, Mastro Expert has been able to successfully match horoscopes with biographies in an automated way and, more recently, to show that inverted horoscopes (e.g. replace Aries with Libra) work best for people born in the southern hemisphere.

“He (Donald Trump) is a man who mistakes separation for strength and isolation for virtue, a figure who builds walls and then congratulates himself for surviving alone behind them. His independence is less courage than incapacity; he cannot remain with people long enough to understand them, so he cloaks his loneliness in talk of protection and principle. He oscillates constantly—agitation feeding enthusiasm, enthusiasm collapsing into worry, concern mutating into nervous torment. His passions flare like faulty wiring: sparks of excitement, sudden bursts of anger, rash gestures that slide easily toward cruelty or violence.”
