#### Mars Stationary Retrograde in 07th House

Partnership struggles and confrontations can come as a result of frustration and working at cross-purposes during this period. It's important to remember that you're not the only one trying hard. Give all the respect possible to what your partner puts in, even if it seems to fail, and hope that you get the same generous treatment. In this time it's trying, not necessarily succeeding, that counts -- and going back to the drawing board together can be equally as bonding as getting it right on the first try. It's not just what you accomplish, it's what you help each other work through, that cements the bonds of the heart.

#### Mars Conjunct Saturn (Retrograde)

Blockages and roadblocks that were tagged for the scrapheap may hang on a bit longer, as Mars retreats from your Saturn and the energy needed to make the push requires recharging. Part of the reason may be that you need to take a closer look at the difference between kicking out the jams and kicking out your foundations. When a new broom sweeps clean, it shouldn't sweep away the furniture as well, so spend some time making sure your supports remain when you finally dispense with the rest. Get rid of what holds you back, not what holds you together, and know the difference.

#### Mars Stationary Direct in 07th House

Allowing your partner(s) to take the helm may not have worked out so well recently, but be of good cheer, as the future looks brighter ahead. Your patience with others will begin to pay off as they get in tune with your efforts and you can genuinely share the mutual effort. This may require some decision-making and putting more of your eggs into a single basket to make a commitment strong enough to pay off. Focus on the few, not the many, but keep a watch eye out for those who will be of future value and keep their numbers in your back pocket for a rainy day.

### Mars Conjunct Saturn

Mars returning to its trajectory over your Saturn is just the thing to break through old and stagnant barriers and get the ball rolling again. It also has the energy to kick out needed supports from under you, so look before you strike and be selective in what your new broom sweeps clean. A combination of force and staying power is ideal about now, so strive for a strong but steady hand. A watchmaker's precision powered by hydraulics is the goal, where you grind slow but exceeding small, an inexorable force clothed in subtlety and vision. Sure, you can do that.

The coming three weeks mark a period when not only hedging your bets but replacing your wagers may be just the right thing to do. When resources come up short, don't hesitate to reallocate them in order to provide yourself a firm foundation and a springboard to the future. Redesign with an eye toward giving yourself some extra padding, rather than relying on last-minute income to fill in the gap. Less is more when you streamline your operations, and that may include reshuffling the way you present yourself on a day-to-day basis, in order to become a better part of the flow of life around you.

Kinks, twists, and delays in financial matters are on their way out and a return to smoother sailing is in the works. Although delays may have been annoying, the resolutions they have brought will benefit you immediately and in the long run. Picking up loose ends and tightening your operation has lasting benefits, not only on your resources, but also on your opportunities to disseminate your ideas and expand your contacts and horizons. Any headway you may have lost is momentary and will be made up for by a smoother operation, a steadier course, and fewer distractions over the next several weeks. Tie up loose ends and be ready to move on to expanded horizons and a surer sense of your underpinnings.

The next three weeks could easily throw some kinks into your schedule and make your routine suddenly unroutine. You have the opportunity now to iron out the wrinkles that may have been bothering you but which were somehow still left unattended. You may be wise to put great leaps forward temporarily on the backburner until you are sure there is nothing to trip you up along your way when you make your moves. This may result in coming to some reconclusions about how and with whom you deploy your creative juices. Listen to that inner voice to make sure you heard it right, then get back into gear.

A period of changeability and shifting focus has turned the corner and you will increasingly know better which choices are viable and which are not. Provisional projects will turn into final directions; distractions will be identified and pushed aside. Wherever you do wind up going, don't simply forget the road not taken, the path decided against. Keep them in your memory bank as they may turn up in other guises later and you'll already be halfway there. Follow through on what looks like a winner now, but don't let seemingly wasted time be forever lost by throwing away its fruits. Act selectively, but retain all.

You can pick up momentum by cutting away distractions and making a firm thrust in the direction of your choice. #### Mercury Stationary Retrograde in 02nd House

The coming three weeks mark a period when not only hedging your bets but replacing your wagers may be just the right thing to do. When resources come up short, don't hesitate to reallocate them in order to provide yourself a firm foundation and a springboard to the future. Redesign with an eye toward giving yourself some extra padding, rather than relying on last-minute income to fill in the gap. Less is more when you streamline your operations, and that may include reshuffling the way you present yourself on a day-to-day basis, in order to become a better part of the flow of life around you.

#### Mercury Square Neptune (Retrograde)

Not the clearest of times. There is the danger of foggy thinking and of your being misled or getting too carried away with some plan or idea. A lot of mental pressure.

#### Mercury Trine Moon (Retrograde)

You have a natural sense for communicating with others, especially those younger than yourself. Clear thoughts about the past may also be flowing in today.

#### Mercury Stationary Direct in 01st House

After three weeks of readjustment, you can start getting plans back into shape for going ahead, which includes some new feathers put on your personal image. You may find you have discovered some improved ways of fitting your own leadership into the mix, which will firm up during the next few weeks and everyday rhythms get renormalized. Although it might not have seemed so a couple of weeks ago, you're increasingly glad to have had the opportunity to edit your life a bit so you can better exploit your position both socially and financially during the next month or so. Some changes will be momentary, but some will last.
