

## DEATH AND TRANSFORMATION

The most serious astrological condition for the USA in 2022-2023 is the conjunction of transiting Pluto with natal Pluto in the USA chart that will occur three times in 2022 and almost again in 2023. One way or another, America will be permanently altered by this aspect. If we “build back better,” then it can be a very positive transformation. However, what is very likely (because we are already seeing it) is that vestiges of racism and other ugliness will also rise to the surface. These years are likely to be painful.
