Mercury Stationary Retrograde in 11th House

Sometimes when you choose to lean on friends, you find they're leaning on you already, and then everybody gets confused. The next three weeks give you the chance to discover and address this kind of situation so that good feelings remain all around and everyone is back on a mutual course. One reason this can happen to begin with is that you may have been paying too much attention to your own goals and aspirations and lost track of your personal support grouping. A little healthy self-introspection may help your own ambitions find better focus and general support where you can most rely on it.

Mercury Stationary Direct in 11th House

You may have found the last few weeks have required you to spend some time pinning down just who your real friends are. Misplaced expectations can make for delay, but once you've separated the wheat from the chaff you'll have a better idea of who is really in the game. Now is the time to nail down those connections who had been hovering in the wings, time to get the message through to the ones who matter. That's important because you may soon need a shoulder to lean on, or at least a reliable counterpart who can help provide focus and serve as radar when the fog rolls in.

#### Mercury Stationary Retrograde in 03rd House

The next three weeks may well mark a lot of ebbs and swirls in the social fabric you move in, with associates backing and filling and sometimes seeming less than reliable. No blame here, just a general reshuffling until everyone feels comfortable with their positions, including yourself. Try to work on removing obstacles to the flow and diplomatically shift your schedule according to who better fits your evolving agenda. Toward the end, you may have to call into

question some aspects of your financial underpinnings in order to effectively make contact and cause others' goals to come into step with your own.

Several weeks of greater confusion than you'd have liked are on their way out and you can get back to what you were doing with a bit more confidence and sense of purpose. Getting roadblocks out of the way allows you to chart a surer course and feel better about what you are doing and what kind of commitments you can make and live up to. Red herrings and detours can be put behind you as you get back onto a map everybody can buy into. The cost of delays and uncertainties is made up for by knowing that they no longer impede and that you can now throttle up and get on some real speed.

The everyday care of the smaller necessities in life are highlighted during this period. First, you may feel you are not getting your daily due and proper attention -- but then you may discover it is because you haven't really asked for what you truly want. Learning new and more satisfying ways to address your personal habits and those of others will refresh once you take a closer look. This can mean taking better care of yourself, eating what truly satisfies, and turning the necessities of the daily grind into the opportunities of ever-evolving accomplishment. Life is one thing at a time, each well done.

Venus Conjunct Mars (Retrograde)

Venus making a temporary pullback on your Mars will provide you with a period of some weeks to reconsider just what you want to focus your energies on. What really turns on your enthusiasm enough to put out for it? And, just as important, what no longer does? Making these kinds of decisions now will pay off in a leaner, more motivated you down the road -- and you might as well do it with a will, as you'll probably have to, anyway. You'll find yourself evermore able to find that crossroad of opportunity and desire that both boots your metabolism and fans the flames of your heart.

Knowing what you want to get out of your daily routine is essential to making it work for you and not you work for it. That may have been something of an issue of late, but clearing things up is the order of the day now, so go ahead and prioritize. Setting clear goals makes the details of achieving them that much easier, so the more specific you can be, the better. By clearing your decks, you open up your path, so don't be afraid to dispense with time-wasters and overstated tasks. By sticking to just what is necessary, you lighten your own responsibilities and enable partnering to expand your horizons.

Sometimes assumptions about those most close to you can turn out to be misperceived, and the next three weeks gives you a chance to take a second look. You can nip problems in the bud and smooth potentially ruffled feathers, including your own, where things have been taken for granted and are slowing down progress. Mending ties to others can make for stronger relationships if you are ready to address small problems and so prevent them from growing. In the same way, good fences make good neighbors, and keeping your own integrity may be part of it, so don't do others' jobs, but let equality have play.
