Mercury Stationary Retrograde in 10th House

Just when you think you can enjoy the limelight, you have to turn around and put some more spin on your tale to satisfy the onlookers. That scenario can characterize the next three weeks when your image may need some polishing and you have to resolve differences of opinion on your status. But, a few stumbling blocks well attended to now will open up a path of clear sailing down the road. Part of this may be that you haven't really picked up the smaller stitches because you've not quite got the bigger picture in focus. Refocus, pull all the threads together, and then you're on your way.

Mercury Conjunct Midheaven (Retrograde)

As Mercury backs off your Midheaven, you will do well to take a second look at what people are saying about you and how well you are projecting the image you mean to. Are you flying the right flags to get what you want? Do people really understand your message and your achievements, or are you taking certain elements for granted? In matters of importance, don't make assumptions but enlist others for a second opinion if possible. If there is any time to tweak your resumé, the next few weeks are definitely it, and the only one who will do it right is you.

Mercury Stationary Direct in 09th House

After a few weeks of uncertainty about the big picture, your panorama on life returns somewhat amended. False starts have led to a focus on correcting details that have distracted from the overall plan, but these are being put behind you so you can return to your former path with a steadier hand on the helm. What you are putting together now will shortly have a direct effect on what people will be saying about you and your career plans, so don't toss off your ideas lightly. You will have the opportunity to impact your surroundings more than you think if you choose to, but you must make the choice.

Mercury getting back into gear on your Midheaven means that word about you starts to spread after a period where you might have thought yourself neglected. The flag on your topmast is coming into view, so make sure your flying colors are the colors you really intend to fly by. Self-promotion leads to others promoting you in turn, so it pays to advertise. When it comes to brand recognition, make sure it's your brand they ask for, your style they distinguish and think distinguished. When your reputation is at stake, stake it out and mark out your territory.

Ask and you shall receive, but you've got to know what to ask for and who to ask, both of which may have been the subject of some confusion of late. After feeling around for the answers, resolution now becomes more accessible and the resources available for you to draw upon become a bit more clear. The key may be to focus on one thing at a time and not to scatter your shots and waste your powder. Pick a target and go after it until it yields up what you want. Besiege the objects of your desire until they surrender to your resolve. A broadening of your vision will result from drawing intensely on your surroundings.

This begins a three-week period during which you have the opportunity to refine and perhaps repurpose the way you project yourself in your surroundings. Round off the raw edges and pull in any potential entanglements that might be slowing you down. You have not only the right, but sometimes the obligation, to change your mind in order to insure consistency and personal impact. Toward the end, this may particularly include tightening up solutions to previously resolved issues to be sure they are well in hand. When you've got all your ducks in a row, you won't have to look back.

Mercury's reversal directly on your Sun is a road sign for coming reevaluation of your fundamental energies, the way you project yourself from the inside out. Perhaps it is time to again put to words and rephrase just what it is that you're all about, and fine-tune your inner beacon's lens so that your light shines more clearly on the world. The message is: Don't take yourself for granted and don't let precious resources sit idly by when you can put all your balls in play. Mercury turning around on your Moon may give you the message that you may have been missing something emotionally, perhaps not fully accessing your feelings when personal matters come into play. It could be time to take a second look at knee-jerk reactions and the

Although it might not have seemed so a couple of weeks ago, you're increasingly glad to have had the opportunity to edit your life a bit so you can better exploit your position both socially and financially during the next month or so. Mercury turning back to action on your Sun means this three-week period of reshifting is best rid of through the sheer force of your personality. Ease off on the money pedal but don't slam on the brakes, either. Opportunities for really good, long-lasting moves are few, and energy used sparingly now will serve well to have conserved later. Where you had to make do with other people's initiatives or no progress at all, you can again take the reins yourself and make it happen your way without intermediaries. Once things are back into your hands you will be better able to push for change and advancement in development of your financial resources in the coming months. Make your presence known and you will get results.

Mercury Stationary Retrograde in 09th House

Sometimes painting life with a broad brush can cause you to miss messy details that then slow you down. The next three weeks are a great time to pause and make sure the rug rats and ankle biters are not in a position to sidetrack your whole operation because you ignored them. It's time to give the small things their due so they can serve your larger purpose. By doing so, you may discover a better version of your own vision as well. Don't hurry, you've got time, and you may find that in the end tapping resources you had ignored will trigger a rising tide that floats all boats, not just your own.

Mercury Stationary Direct in 08th House

The last few weeks' complexities and contradictions begin to clear up and you've turned a corner on finding out what you can get elsewhere and what you can provide yourself. If you need to borrow, it will be in the cards, but you may equally find that a little inventory of your past resources will reveal you've actually got all you need if you try out a new way to tap it. Brilliant ideas that seemed elusive are headed back into the pipeline but will still need a little sorting out before you can bring them to fruition. Putting previous obstacles behind you will give you the chance.
