The coming three weeks mark a period when not only hedging your bets but replacing your wagers may be just the right thing to do. When resources come up short, don't hesitate to reallocate them in order to provide yourself a firm foundation and a springboard to the future. Redesign with an eye toward giving yourself some extra padding, rather than relying on last-minute income to fill in the gap. Less is more when you streamline your operations, and that may include reshuffling the way you present yourself on a day-to-day basis, in order to become a better part of the flow of life around you.

After three weeks of readjustment, you can start getting plans back into shape for going ahead, which includes some new feathers put on your personal image. You may find you have discovered some improved ways of fitting your own leadership into the mix, which will firm up during the next few weeks and everyday rhythms get renormalized. Although it might not have seemed so a couple of weeks ago, you're increasingly glad to have had the opportunity to edit your life a bit so you can better exploit your position both socially and financially during the next month or so. Some changes will be momentary, but some will last.

Big plans and ideal notions may seem to satisfy less during this period, or may seem less affordable. Satisfying a large appetite can tire you more than trimming back and tasting only what truly satisfies. You may find that what you really want and believe in is getting dragged down by what you used to care about but which no longer carries its weight. If you want it, go for it, but if not, let it go without regret. Enthusiasm requires focus, and this is a good time to regain yours. When you think you're being denied, it may be that you're actually sated. Time to tune up those taste buds in every sense of the phrase.

Ask and you shall receive, but you've got to know what to ask for and who to ask, both of which may have been the subject of some confusion of late. After feeling around for the answers, resolution now becomes more accessible and the resources available for you to draw upon become a bit more clear. The key may be to focus on one thing at a time and not to scatter your shots and waste your powder. Pick a target and go after it until it yields up what you want. Besiege the objects of your desire until they surrender to your resolve. A broadening of your vision will result from drawing intensely on your surroundings.

Just when you think you can enjoy the limelight, you have to turn around and put some more spin on your tale to satisfy the onlookers. That scenario can characterize the next three weeks when your image may need some polishing and you have to resolve differences of opinion on your status. But, a few stumbling blocks well attended to now will open up a path of clear sailing down the road. Part of this may be that you haven't really picked up the smaller stitches because you've not quite got the bigger picture in focus. In matters of importance, don't make assumptions but enlist others for a second opinion if possible. If there is any time to tweak your resumé, the next few weeks are definitely it, and the only one who will do it right is you.
