Everything is worth a try for the next few weeks, and branching out to have a little of each is what it's all about. That of course includes taking the banal with the sublime, and if mixed tastes are not your style you may want to tread water for a while. On the other hand, there will be some dishes up for grabs you wish you'd known about earlier, so don't turn a blind eye.

There is an opulence in good taste that surpasses grandeur, and the key to satisfaction is not how much you have but what you do with it. Taking just what you need to feed your desires makes for a gentle spiral of growth and gratification. By making it just so, the afterglow of contentment lingers on.

Sometimes you can see just as well with a flashlight as with a floodlight, especially if you are examining something small. The simplest solutions are often the most ingenious, and it's the household gadget that makes most inventors rich. Small and clever is the order of the day, and it has staying power.

The next couple of years will produce the end of many illusions and hard times for those who perpetrate them. Matters of unconfirmed belief are likely to be tested, and those who have relied on intuition alone to get by may have to take a more tangible and practical approach. Real and imagined spirituality are set side by side to see which passes the test.

Whether it be love or money, business as usual is good and satisfaction is almost taken for granted. A look at just how you go about that might make for an even better tomorrow. The hand-in-hand flavor of giving and getting is what makes deals go well now, and that's something to emulate in the future.

The wellsprings of the mind are, like water, often taken for granted. When ideas flow fresh from the tap, one assumes they are always there, as at this moment. Launch it now and that will likely always be the case, but a look inside the mechanics of your everyday creativity might help you drink when wells run dry.

Constantly getting lost can really slow things down, and a general tendency not to ask for directions or not to understand them has everyone spinning their wheels. Quicksand is mistaken for solid ground and it takes a lot of thrashing about to regain the shore. It might be better just to wait for a change in the weather.

A mist upon the mind makes ordinary clarity just history for the time being, but the numinous clarity of dreams is at your beck and call. Or, you can overestimate the effectiveness and reach of your powers and wind up going "a bridge too far." There is a general climate right now for making that judgment error, and once you have made it, there usually is no going back. You may equally find yourself the recipient of this kind of pressure, and should you see it happening, don't fight it and have it go to its logical hurtful conclusion, but don't give in, either. It's easy to insist on cutting your way through the confusion only to find yourself more at sea than before. Perhaps it is better to roll over and go back to sleep and wake up on the other side of the bed. Elusive concepts flee in the face of challenge, so watch the show without requiring explanation. Sparks fly as honing in on issues gets problematical and irritation makes for rough handling. Mistakes born of haste are not easily corrected and repeated efforts are best marked off to experience. Itchy and edgy, the mood is unsettled and it's not the best time for laying down foundations where steadiness is required.

What folks are saying and thinking is a lot closer to their hearts than you or they may think, so verbal sparring can get taken too seriously in the next few weeks. People mean what they say a little too much, and say what they really mean too little. There's a cry over the milk, spilled or not, so speak judiciously, with sensitivity.

Steady focus and clear, reductive thinking get reliable results that inspire confidence in others, particularly those on the conservative side. Keep your eye on long-term operations and slow but steady development. Think big but not fast, what is begun now is for posterity, and that's forever, so you've got time.

High mental energy burns hot, a real brain boiler. The trick is to keep up with everyone without missing a stitch or dropping the ball. Everyone can be too close to the subject to realize that what recommends it is only the heat of the moment.

Ego compounding desire can make this moment hot but nearsighted at the same time. In the passion of the moment all are more likely looking out for number one than for the general good, and the possibility of missing the long-range win is real. Seek what you want, but remember you'll still have needs tomorrow.

Abrasiveness and annoyance are qualities you might be running into right now, so make sure you're not displaying them yourself. Impatience is not a virtue, even if you know you're right, and it's easy for everyone to pointlessly butt heads. Schemes laid now may well be half-baked, so take a second look, maybe a third.

Separating the wheat from the chaff is a stop and go operation, and just as a good idea seems about to be fruitful, a problem arises. Each time, however, you get closer to a final fix, so the frustration will be worth it if you see it through to the end. A time to refine big ideas until they have definition.

Anything you choose to do with your interior software will keep this high pace in times to come, so strike while the iron is hot.

	Venus Opposition Uranus	Fickle desires and changing tastes can make it difficult to satisfy yourself or those around you. If people keep changing their minds, what is one to do? It's probably best to wait for a clearer focus before committing to something that could be out of fashion the moment after it's begun. For the time being, just experiment.

	Mercury Sextile Saturn	Slow and steady wins the race -- in this case, without even knowing the race is on. Quiet thought in a still place dispels the cobwebs of the mind and substitutes depth for crowded considerations. A marathon of any kind is well begun now, and the pace will be set for a long run without getting winded.

New Year's resolutions are just part of the getting-earnest style of the next month, where sincerity, business, and sometimes desperation are the drivers which themselves lose steam when the New Year turns out to be just another new year. Pretending deadly seriousness can be a kick, but living it is a drag, so play there, but don't stay there.

High mental energy burns hot, a real brain boiler. The trick is to keep up with everyone without missing a stitch or dropping the ball. Great ideas abound, but don't buy everything you see until you give it a second, cooler look. Everyone can be too close to the subject to realize that what recommends it is only the heat of the moment.

People will say anything for a laugh about now - and for the next few weeks they'll tend to just say anything in general and then keep talking. Blue-sky blustering is the order of the day, but there's a kernel of truth in some of those free-form filibusters, so don't overlook that fleck of gold gleaming in the pan.

Small investments are the safest, and small returns mount up. Conservative thinking can pay off if you don't make a big deal out of it. Any boat you launch now will be hard to rock, even in a storm, so it's a good time to ease her away from the dock and put gradually to sea. The world awaits, but don't rush.

Getting creative and dreaming up new joys and pleasures comes with ease, and there are plenty of others playing in that sandbox, so share and share alike. Spiritual and material pleasures do not need to conflict, but can go hand in hand for self-satisfaction and the benefit of all. Believe it, and it will come true.

It's easy to insist on cutting your way through the confusion only to find yourself more at sea than before. Perhaps it is better to roll over and go back to sleep and wake up on the other side of the bed. Elusive concepts flee in the face of challenge, so watch the show without requiring explanation. No subtitles.

If you want your plans to develop on track and evolve big time, this is the time to lay them on the table. Imagination and inspiration go hand in hand with motivation and coordination more than usual, so bring everybody together in that spirit and you'll have an operation that can't be beat.

Ideas catch fire and the mind races as your thinking cap jams into fifth gear. A heady time, indeed, but you'll need to keep pace with the rest of the world, which is experiencing the same thing. Anything you choose to do with your interior software will keep this high pace in times to come, so strike while the iron is hot.

Constantly getting lost can really slow things down, and a general tendency not to ask for directions or not to understand them has everyone spinning their wheels. Quicksand is mistaken for solid ground and it takes a lot of thrashing about to regain the shore. It might be better just to wait for a change in the weather.

Quiet confidence in achievable goals makes things run smoothly and cooperation in the mutual interest means everybody gets just the right piece of the pie. Giving easily without a thought to the cost breeds instant karma and it all comes back again in spades. Fearless love is its own greatest reward.

A good belly laugh satisfies everyone right now, and refined taste is not necessary to make a hit. In fact, nuance may not be much in demand at all, so don't expect your subtleties to get lapped up. Go for the gusto, along with everyone else, or else sip your sup on the side. Don't knock the slapstick, however, it's still classic.
