Mercury Stationary Retrograde in 06th House

The next three weeks could easily throw some kinks into your schedule and make your routine suddenly unroutine. You have the opportunity now to iron out the wrinkles that may have been bothering you but which were somehow still left unattended. You may be wise to

put great leaps forward temporarily on the backburner until you are sure there is nothing to trip you up along your way when you make your moves. This may result in coming to some reconclusions about how and with whom you deploy your creative juices. Listen to that inner voice to make sure you heard it right, then get back into gear.

A period of changeability and shifting focus has turned the corner and you will increasingly know better which choices are viable and which are not. Provisional projects will turn into final directions; distractions will be identified and pushed aside. Wherever you do wind up going, don't simply forget the road not taken, the path decided against. Keep them in your memory bank as they may turn up in other guises later and you'll already be halfway there. Follow through on what looks like a winner now, but don't let seemingly wasted time be forever lost by throwing away its fruits. Act selectively, but retain all.

Just when you think you can enjoy the limelight, you have to turn around and put some more spin on your tale to satisfy the onlookers. That scenario can characterize the next three weeks when your image may need some polishing and you have to resolve differences of opinion on your status. But, a few stumbling blocks well attended to now will open up a path of clear sailing down the road. Part of this may be that you haven't really picked up the smaller stitches because you've not quite got the bigger picture in focus. Refocus, pull all the threads together, and then you're on your way.

Mercury's about-face on your own natal Mercury should be giving you a message to rethink your thinking -- take a second look at the way you analyze your situation and see if you can get rid of blockages, generally streamline the way you size things up. Fresh approaches are in the wind as you now can better pick out what has become stale and what bears real fruit. Throw old assumptions to the wind and investigate new formulas for handling your organizational needs. When you've separated out the trash, you'll feel a lot lighter and trimmer whenever you're asked to deal with a situation. Spend the next few weeks picking things apart, then move on with a new approach.

The best-laid plans for self-promotion may have been getting tangled during the last three weeks, but the wind is changing and you'll begin to find it easier to chart your course, especially career wise. Correcting misconceptions about yourself is an important task to undertake, as you can't benefit if others don't really know where you're at. That especially applies where you are trying to nurture valuable connections that will buoy you up in weeks to come. When you make things perfectly clear, that's just what they become, and clearing up confusion clears the skies in general.

Mercury hurling itself back into the fray right on your natal Mercury can mean more than one brainstorm and that "Aha!" feeling can be the order of the day. When that light bulb overhead switches on, be ready to pick up and run with the new plan that can put you ahead of what has been a slower-than-usual game. You may find yourself becoming information central as others gravitate toward what you have noticed first, but make sure it bears the stamp of your imprimatur before you give it away. You can copyright an idea, but you can make sure everyone knows where it came from to establish your leadership.

You are entering a period when you may realize that you are not getting enough of what you want from your physical and financial resources. At least, you may feel that way, even if it's not entirely true, so you should take some time to sort out actually overlooked possibilities from simple discontent. What do you really want, and does what you possess really promise to deliver it? It may be partially that someone (or something) is putting up temporary resistance, or you may just be up for a change of attitude. Separating what you have and want from who you are and want to become may be the most important issue addressed.

The coming three weeks mark a period when not only hedging your bets but replacing your wagers may be just the right thing to do. When resources come up short, don't hesitate to reallocate them in order to provide yourself a firm foundation and a springboard to the future. Redesign with an eye toward giving yourself some extra padding, rather than relying on last-minute income to fill in the gap. Less is more when you streamline your operations, and that may include reshuffling the way you present yourself on a day-to-day basis, in order to become a better part of the flow of life around you.

Kinks, twists, and delays in financial matters are on their way out and a return to smoother sailing is in the works. Although delays may have been annoying, the resolutions they have brought will benefit you immediately and in the long run. Picking up loose ends and tightening your operation has lasting benefits, not only on your resources, but also on your opportunities to disseminate your ideas and expand your contacts and horizons. Any headway you may have lost is momentary and will be made up for by a smoother operation, a steadier course, and fewer distractions over the next several weeks. Tie up loose ends and be ready to move on to expanded horizons and a surer sense of your underpinnings.
